Senior Product Designer and UX Strategist with 15+ years of experience leading human-centered design initiatives across cybersecurity, healthcare, education, and federal programs. Skilled in service design, digital transformation, design strategy, and mixed-methods research to improve complex experiences for enterprise and public-sector.

CORE SKILLS

UX Design / Qualitative Research / Digital Prototyping / Visual Design / Figma / Storytelling / Content Strategy

WORK EXPERIENCE

Cisco, Austin, TX and Phoenix, AZ **Product Designer — Security & Developer Platforms**

Feb 2022 - Apr 2026

- Led UX design strategy and execution for the Security Insights platform, supporting a DevOps audience of 30,000 users.
- Standardized UI components using the Cisco UI Kit design system, reducing implementation time by 25%.
- Conducted user research and usability testing across security engagement managers and engineering leads, leading to a 15% reduction in workflow inefficiencies.
- Presented actionable design concepts to stakeholders, influencing product roadmaps and enhancing cross-team alignment.
- Prototyped tools for secure development lifecycle visualization, enabling teams to assess security postures and improve governance adherence.

Austin Community College, Austin, TX **Adjunct Instructor, UXUI program**

Aug. 2021 - May 2022

- Taught Survey of UX Design and UI Design 2 courses, mentoring students on the principles of user-centered design and interface aesthetics.

Wondros, Austin, TX **Sr. Product Design Strategist**

Oct. 2021 - Feb. 2022

- Led UX strategy for participant and researcher platforms in the NIH's 'All of Us' health research program, focusing on user engagement and data usability.
- Designed a hybrid patient nutrition intake process in collaboration with provider stakeholders, enhancing data accuracy and operational efficiency.
- Developed onboarding and registration processes for patient portals, reducing onboarding time by 10% and improving user satisfaction.
